EXPERIENCE

DUFUNA Product School: Lagos, Nigeria - Software Development **ONGOING**

- Led my team on a virtual Hackathon on a web development project.
- My team and I created a News website using HTML only.
- Collaborated using Slack, Google Doc & Meet and GitHub.
- Designed a career website using HTML and CSS only.
- Collaborated with teammates on GIt using one stylesheet

DUFUNA Product School: Lagos, Nigeria -Product Management Trainee **Mar 2020 - Mar 2020**

- Interviewed 10 potential users to understand their pain points by analysing what they say, think, do, and feel (empathy maWorked within a team of 7 to research ways to solve employability problem in Nigeria pping)
- Conceptualised an application to help high school graduates and college freshmen find a career path and work on building their careers to increase their employability status after graduation.
- Designed an end-to-end user journey to guide the product development process
- Employed agile methodologies including creating user stories, organising them into a backlog and iteratively developing the product.

LEADERSHIP

Plogging Nigeria Club: Osun, Nigeria --- Head of Operations **Jan 2019 - Jan 2020**

- Planned plogging sessions, a period to jog while picking litters off the street.
- Ensured proper provisions were in place for events that encouraged students to learn about the environment while improving personal fitness.
- Participated in sensitizing students about proper waste management and SDG goals.

Evangelical Christian Union (ECU): Osun, Nigeria --- Child Evangelism Head **Aug 2018 - Aug 2019**

- Drafted a one-year vision statement to ensure the subgroup fulfilled its mission.
- Managed a subgroup of over twenty people towards achieving the vision statement (catering for the welfare of children in surrounding communities while ensuring the growth of the subgroup)
- Hosted festive events for 100 children where they learned about the Christian faith, got insights into career paths and learned morals.
- Collaborated with other executives to find solutions for administrative issues in the fellowship such as procurement of a worship center, weekly activities for members, and welfare prioritization.
